

Dear Ms.Seay:

Regarding your Request(s) for Information dated January 23, 2008 and regarding the Amended April and July reports, as well as each monthly report in between and the lack of 'utility' payments listed.

As we discussed, the utilities are included in the rent for the state GOP office and thus not itemized in the FEC reports nor in the party's financial book keeping.

As evidence, the committee can present a lease or other document to the FEC should you require it.

Please let us know if you need anything else regarding this matter.
